December is Rotary Family Month

Family is on the minds of many Rotarians in the month of December. In addition to recognizing the importance of families in Rotary, the month is also a celebration of the family of Rotary.

This includes Rotarians and all those involved in Rotary's work from the Rotary Foundation Program to those participating in Rotary Youth Programs around the world. Involve your family in community service and in Rotary by inviting them to a club meeting. Other suggestions in conjunction with Family Month include applying the 4 Way Test and other Rotary Principles to your household in addition to the workplace.

The Rotary Club of Franklin is recognizing Family Month in December with the Club Christmas Party Thursday December 12th 530pm at the Dillard House, The Children's Christmas Party at the December 11th Meeting and continuing efforts in helping with The Macon County Sheriff's Office Shop with a Cop Program.

Nancie's Notes

What an enthusiastic group of youngsters visited our Club today for our annual Children's Christmas Party! Thanks to Larry Hollifield, Patsy Parker, Susie Ledford and Robin Jenkins for putting the party all together and making it work. I also want to express the Club's appreciation to Alice Mason for her violin renditions of some favorite Christmas carols and to Janet Greene for leading the singing. We all had a good time, and the children seemed very appreciative of their gifts.

We plan to induct Ryan Finn and Heath Hammond into our Club next week. Membership chairperson Linda Harbuck advises that so far we've inducted 10 new members into our Club since the beginning of this Rotary year! Thanks to all of you who've sought out these persons, invited them to the Club for lunch, and then proposed them as members. Our Club is stronger each time a new member joins, and I hope that each new member has already selected an avenue of service in which to work and volunteer. Please see me or any Board member if you, as a new member, need more information about our Avenues of Service and the names of the directors responsible for each one.

More Musings.....

- *Numbers that are not divisible by 2 are odd to me.
- *One must always respect age - particularly when its bottled.
- *Engineers are not boring - they just get excited by boring things.
- *Math teachers sure do have problems!
- *Scars are the tattoos with better stories.
- *The trouble with trouble is that it starts out as fun.
