STEM

Jennifer Love: Program Coordinator

Jennifer Love – STEM Program Coordinator for Macon County presented today on all the amazing projects and activities the STEM Program is offering our youth in Macon County. STEM is an acronym for Science, Technology, Engineering and Math.

The STEM Program is not a checklist type of program. The concepts are not taught in isolation, rather the teacher is a “Guide on the side, not the sage”. This mentality provides opportunities for failure, therefore providing opportunities for growth and problem solving. This program really looks at problem solving and persevering through the problem. In fact; the Mission of the STEM Program is to create a community of problem solvers.

The Goals of the program are as such:

- 1) Professional Development Opportunities
 - Discovery Education
 - Encourage development of 25 STEM Leaders in 5th – 10th grades
- 2) Providing opportunities for our students so they may understand and practice 21st century skills
- 3) Encourage and support relationships in our community leaders which will encourage collaboration and inspire innovative solutions to community issues
- 4) Provide resources to our teachers and students so their creativity and productivity is not restricted

Macon County STEM Initiatives for 2018-2019

- *Robotics
- *Professional Development
- *STEM in Schools
- *Community and Regional Initiatives

Funding & Support: This program heavily relies on The State and private funders through -

- ~Grants
- ~Donations
- ~Fundraisers
- ~In-Kind Donations
- ~Partnerships
- ~Macon County Schools
- ~Volunteers
